

BTMA Executive Profiles 2016-17

Karen is a technically inclined business professional with a passion for marketing. With experience in the field of Information Technology, having served the e-commerce platform of one of America's largest consumer electronics firms, her interests lie in client management, e-commerce and project management.

She has been a BTMA executive from the first year of her MBA, her dedication showcasing through her passion in organizing relevant events for fellow candidates. When not making random song suggestions to people, you'll find her improving her racket-wielding skills at the York squash courts.

Yusuf is a marketing and business development professional with over 5 years of experience in the technology industry. He has been a BTMA executive from the start of his MBA and now works closely with professionals in the tech industry to bring the best opportunities to Schulich students. He is a diehard Manchester United fan and you can often spot him playing soccer at one of York's many soccer fields.

Aditya is a software engineer with 8 years of product development experience. He has developed e-commerce solutions for the UK retail giant TESCO for their central European and south-east Asia operations. He holds a PMP and is a Certified Scrum Master. He is an agile enthusiast, specializing in agile delivery. He has been a BTMA executive from the start of his MBA and is now working towards connecting students to professionals within the technology industry. He is also an ardent fan of Arsenal F.C. and loves to travel in his free time.

Anway is a Technology Consulting and Strategic Management professional with over 5 years of experience in IT project management, business analysis & quality assurance functions in the financial services domain at BNP Paribas. He recently worked with a boutique technology consulting firm in Toronto on agile IT transformation and cloud testing adoption strategies. He is a self-driven individual, enjoys working in a team environment and gets along well with people. He loves to spend his free time with family and friends, read books, and is an avid photographer and cook.

Kartik is a Technology Management professional with over 3 years of experience as a technology analyst at Deloitte. He is a tech savvy individual with experience in SAP project management, agile product development and business analysis. He has worked with various client support teams and software vendors to deliver great value to his clients. He is enthusiastic about the transformation of the financial services industry and a strong proponent of the Blockchain revolution. In his free time, he enjoys cooking and playing the guitar.

Matthew worked most recently as Manager of Document services for a boutique civil litigation firm in downtown Toronto, supervising a team of document management specialists to promote a paperless working environment. He specializes in working with legal support software, including various electronic discovery, documentary production and practice management applications. Matthew has worked closely with software developers and hardware vendors to implement practical data management solutions for his employer and its clients. In his spare time, Matthew enjoys athletic pursuits and an interest in music and the arts. He plays basketball and collects vinyl records.

Shlagha is a Technology Management professional with over 3 years of experience as a business technology analyst at Deloitte. She has experience executing business to technology transformation for clients, managing their supply chain, finance, sales and distribution modules, and coordinated with cross functional teams. She has been a BTMA executive from the start of her MBA. She is an avid foodie and a yoga enthusiast.

Zach is a technology-minded business professional with a diverse skillset and experiences in Education, Marketing, Product Development, and Business Analysis. With a Business-Economics background, he has worked with the vision to bridge the gap between people and technology and transform businesses. Zach is enthusiastic about Data Analytics and the role of technology in our everyday life. In his free time, Zach loves to share his knowledge through tutoring. He also enjoys playing the guitar and solving puzzles.
