

# HCBF Executive Profiles 2017-18

**Bella Yoro - President**

A well-rounded healthcare strategist who is pursuing her career in strategic management within the life sciences sector. She is passionate about improving patients' quality of life, and takes initiative to improve the community by running charity events, mentoring in schools and serving on an ethics board.

**Adeline Koh - Co-Vice President**

Adeline is in her final year of MBA candidacy, specializing in health industry management and finance. She holds a Bachelor of Science from York University and Master in Clinical Embryology from National University of Singapore. For over a decade, she has various experiences in health industry from pharmaceutical sales, clinical embryology, and biotechnology research to administration. Her interest lies in commercialization and startup valuation. As a co-Vice President, Adeline's goal is to promote healthcare and biotechnology forum effectively to the student community and industry experts.

**Kristiana Vangelova - Co-Vice President**

Kristiana has a Bachelor of Science from the University of Waterloo where she specialized in Biology. She worked in a lab where her research focused on the uptake of toxic compounds using microalgae and the conversion of the resultant biomass into biofuel. Kristiana is interested in disruptive technologies and how they will change the game for the healthcare and biotech sector. Her goal as part of HCBF is to help interested students become informed and connected with industry stalwarts. In her spare time, Kristiana can be found at Snakes and Lattes trying out new board games, or in a studio practicing Muay Thai.

**Mladen Danon – Director of Operations**

I am a Professional Engineer current working in the pharmaceutical industry (R&D at Sanofi Pasteur). I am a forward-thinking leader of project teams involved with process innovation/optimization, Commissioning/Qualification (C&Q) and Quality Engineering. Past experiences have included project management and consulting in food and pharmaceutical industries within Canada & USA.

**Morgan McNaughton – Director of Business Development**

With a background in Kinesiology and Health Sciences, and several years of pharmaceutical patient access and operations management experience, Morgan is very passionate about Canadian and international healthcare. He has developed a strong interest in the pharmaceutical industry, specifically in consumer goods and market access for specialty medications. He is a part-time MBA student who currently works as an operations manager in pharmaceutical market access programs, and hopes to pursue dual-specializations in Strategic Management and Marketing Management.

**Tina(Xi) Yuan – Director of Marketing**

I am an IMBA candidate at the Schulich School of Business. I received my Hon. B.Sc. from the University of Toronto specialized in biomedical toxicology during which I conducted experiments in the search of novel-anti-inflammatory drugs. I successfully organized the 2nd Zebrafish conference for Personalized/Precision Medicine at St. Michael's hospital, which attracted over 200 scientists, clinicians and researchers worldwide. I am passionate about healthcare, and am interested in pursuing a career in the healthcare industry.

**Manu Nagra – Director of Finance**

On completing Bachelors in Metallurgical Engineering from IIT Kanpur in 2010, I joined Schlumberger in Oilfield Services where I worked for 3 years gaining expertise in onshore/offshore drilling operations. I had the privilege to serve for high-profile Deep Water contracts very early on my career. In 2013 I moved to starting-up multiple personal ventures, the last two in the test prep sector, before moving to consulting (freelance) the largest player in the test prep industry in India. I have consulted on areas as broad as designing innovative marketing strategies, brand positioning and business development. I had the opportunity to pioneer a client's first ever

international foray overseas in Singapore. An active sportsman, I have played soccer throughout college & work and have also enjoyed organizing many tournaments and events in different settings. I also have a demonstrated flair for self-learning new technologies. I am currently pursuing my MBA from Schulich school of Business with an interest in finance and financial modelling.
