

SIMA Executive Profiles 2018-2019

Tracy Ann Haynes

Tracy Ann Haynes has a passion for taking on challenges, advocating equality, and assisting those in need. Tracy is an experienced policy advisor, meeting facilitator, and project manager. She also has a strong understanding of in early-stage sourcing and due diligence, monitoring and evaluation, and negotiations. Her educational background includes a bachelor's degree in environmental studies from the University of Waterloo and a master's degree specializing in International Development from the Royal Melbourne Institute of Technology. She is currently working toward an International MBA at the Schulich School of Business and focused on a future career in social impact investment. Tracy has a strong belief in volunteering, committing significant time and energy to assisting newly arrived migrants and refugees as well as underprivileged youth. She also enjoys a great debate over a cup of strong coffee.

Brad Andrews

Brad Andrews is a non-profit professional with a desire to bring change to the social sector. He is passionate about models that see well-run organizations in the sector receiving the funding that they need to solve society's trickiest problems.

Brad is a relational leader, whose experience comes from roles as Executive Director, Board Member and Super-Dad. While his undergraduate degree was in engineering, the majority of his career has been spent in outdoor education, where he learned the value of experiential education, leadership development and good communication. He is an avid learner and feels that he has much to gain from good conversations, good books and good people.

Nitin Kumar

Nitin Kumar is an MBA student specializing in finance and entrepreneurial studies. In addition to being an undergraduate in Commerce, he is also a Chartered Accountant from India. Working in multiple domains of finance for half a decade has allowed him to develop expertise in corporate finance, process optimization and project management. He is passionate about social causes and has held diverse positions in different national level NGOs/foundations in India. He was also part of a WWF (World Wide Fund for nature) fellowship where he worked with artists from the Indian film fraternity to design and execute a state level environmental campaign. He is an ardent fan of Japanese manga and is always free for a game of soccer.

Sujeet Das

Sujeet Das Sujeet brings diverse and creative experience coupled with infectious enthusiasm into every project he worked on. He started working for the United Nations from 2007 as Volunteer. Over the last eleven years, his social impact work spanned across Uganda, India and Afghanistan. He got involved and associated with Sparsh, CRY and Teach For India foundation as Project Leader and Contributor. He always believes in the idea of connecting society with technology. His ideas during his undergrad in electronics engineering involved utilizing an adhoc network for earthquake rescue which received appreciation from Georgia Tech and US Geological, and brain tumor cell detection algorithm was praised by Rockefeller New York. His work experience involves working with brands such as Oracle where he got the opportunity to be nominated for Harvard University's course on Design Thinking, Gates Foundation, P&G and IIMA. His MBA journey is filled with Case Analysis team, Arts and Media as well as SIMA stations. He strongly believes in solving problems creatively and in an out of box way in his every role.
